THE GLORIOUS FOURTH.

Many Enterprise people celebrated at the head of the lake, where a crowd not nearly so large as last year, enjoyed a day or two days outing. Some exercises were held, but the main attraction was the lake and its beautiful surroundings.

A number of family and party picnics were held up and down the river, and one composed of Alder and Enterprise people in Hurricane Canyon.

BALL TEAM WON THREE OUT OF FIVE ON TRIP

Part of the ball team are home telling the story of the week's playing in Union county. The club won three out of five games played in five days, a splendid record considering the team had but one substitute pitcher. As a result the club won two games at Cove and the boys were royally treated, and they will never forget the fine hospitality of all the Cove people, and especially those Cove strawberries, 48 quarts of which were brought to the hotel so that the boys would surely have plenty.

The first game at Union was lost by a combination of errors and hard luck. Friday the boys won from Union by a score of 8 to 6. Enterprise scored seven runs in the first inning. Conaway pitched the first three innings and then gave way to Billyeu.

The club lost to Elgin Saturday by the score of 6 to 1. Oburn pitched fine ball, while Billyeu did well considering his sore arm. One of Enterprise's famous ninth inning rallies nearly scared the game from Elgin.

SUNDAY SCHOOL PICNIC AND BASEBALL AT FLORA

The people of the Flora and Lost Prairie country held a Sunday school picnic in the beautiful grove near Flora Saturday. It was very successful in both enjoyment and attendance.

A baseball game was played between Flora and Lost Prairie nines that resulted 28 to 13 in favor of Flora. W. E. Taggart of Enterprise umpired. Following were the players: Lost Prairie—Williams, Martin, Redman, Renfro, Nicolson, Kuhn, Bots, Fordice, Cole; Flora—R. Eddie, Gandy, Gandy, Wright, Gowey, E. Eddie, King, Daley, Robinson, Curry.

WEDDING BELLS.

Makin-Gossett.

Miss Julia Gossett of northeast of town and Mr. William Makin of near Cove were married Saturday evening at 8:15 o'clock at the home of and by Rev. W. P. Samms. Mr. and Mrs. Samuel Richards, the latter a sister of the bride, were the attendants. The young couple left at once for the lake to spend a few days and will visit in this vicinity for a week or ten days and then will go to Union county to reside on his farm. Mr. Makin is a grandson of Wm. Makin, Sr., of this city.

Waelty-Goebel.

Miss Christina L. Goebel and Mr. Murland E. Waelty were married in Hotel Enterprise parlor, Monday morning, Justice A. C. Smith officiating. Mr. and Mrs. A. G. Waelty were the witnesses. All the parties reside in or near Wallowa.

Mrs. DeBord's Experience.

Union, Ore., Jan. 22, 1909.
Whirlwind Remedy Co., Elgin, Ore.
Dear Sirs: Four months ago I had to walk on crutches. I had scarcely any use of my limbs at all. My limbs were swollen badly. I commenced taking your Whirlwind Tablets. In a very short time the swelling had entirely left my limbs and I am now just as well as I ever was. I can do all my own house work. The above is my experience with your Whirlwind Remedy, and I am pleased to recommend it to others.
Yours truly, Mrs. Miranda DeBord.

GENUINE MINING BOOM STRIKES HOT AT LOSTINE

It is stated on good authority that the Contact Mining company has let a contract for a \$5000 tunnel on their claims on the South Fork above Lostine, and 100 men will be brought in to work within 60 days. The company has \$20,000 of Spokane capital to develop the mines, and a road will be built to the claims. This all means a real boom for our sister town of Lostine.

electric spark then passing down the front of the body to the ground.

The family were almost prostrated over the sudden and terrible accident. Mr. Downing has been ill and for a while it was thought the shock of his son's death would have a fatal effect on him. Dr. C. T. Hockett of this city went out and attended him Monday and he is recovering. The sympathy of the entire community is extended to the bereaved family.

WALLOWA COUNTY CLIMATE IS IDEAL

(Continued from front page.)

confounded with the so-called semi-arid regions. There is no desert land here, no sandy, sage brush plains. Everywhere grows the native grasses, covering the hills and valleys with a deep carpet of green that browns only with the late summer and early autumn harvest weather.

The cause of the difference from other counties in this region is that the county is surrounded on all sides by mountain ranges, the Wallowa and Blue Mountains shielding us on the south and southwest from the hot winds that sweep over central and eastern Oregon and southern Idaho. These same mountains, with the highest peaks in the state, break the heavy rainclouds causing more precipitation in this county than anywhere else around by several inches. The Blue mountains also guard against the cold west and northwest winds. The high hills of Astoria keep the northern passes while the famous and altitudinous Seven Devils range over the Snake river complete the circle of topographical isolation.

The deep canyons, the magnificent forests, the rolling hills and broad valleys are other topographical features that complete the change, giving a sub-tropical climate in the canyons and a pleasant, four-season temperate climate on the upland and in the main valley.

NORTH END NOTES.

Peter Fordney, ex-representative has bought out the business of Nova Straley at Paradise and will also conduct the postoffice.

Dr. Gilmore's neat two-story business room on the main street of Flora is completed. One room is occupied by a drug store and the other by a millinery business.

A TELEPHONE NEWSPAPER.

American telephone subscribers are familiar with the use of the central switchboard operator for the dissemination of news. Any good natured operator will give one the time of day upon request, and in the smaller towns one can often find out where the fire is and whether or not they have caught the man who broke into Squire Miller's barn. But it has remained for Budapest, way off in telephonically barbarous Europe, to make the complete use of the telephone as a news bureau.

The scheme is a news service, which is turned on at stated times throughout the day. In the morning the day's program is announced, so that the subscriber may take up his receiver and listen whenever the things that he is interested in are on tap. There are hours for stock quotations and business news, parliamentary news and weather forecasts. In the late afternoon cafe music is turned on, and in the evening opera. Thus does the Budapest Telephone Company make eavesdropping and gossiping on the wire a source of profit to them, as they charge their patrons \$7.31 per year (2 cents a day) for this service. It is as if the whole city were on one party wire with everybody listening to what is going on.

It is not likely that America will soon adopt the Budapest plan. With our newspapers coming out every hour, our "tickers" with business and sporting news, and our omniscient, all-wise American "hello" girls, the need is fairly well met.—Success.

FLORA OF THE PACIFIC.

Science tells us that organic life on our globe began with sea weeds in cellular structure. During the progress of the ages, however, this order of vegetation has kept pace with the land productions in a steady evolution, yet to this day the gardens of the ocean fail to attract public notice. This may be owing in part to the se-

clusion of their habits in submerged localities where no human foot can tread, and in depths no human eye can fathom.

The vegetable products of the ocean are far more numerous and are fraught with greater interest than most people suppose. Beneath the stormy billows are some of the most delicate and attractive flower gardens of earth. Their existence is not less real because we cannot see them.

The Macrocystis (long shrub) in southern California waters is the sequoia gigantea of the ocean. It is not uncommon for the tide to land on shore a specimen 500 to 700 feet long, and we are assured that sometimes a monster 1500 feet long has been on exhibition after a winter storm. The trunk of this tree is simply a cord, or cable, that anchors it to the deep bedrock. What is called the "holdfast" is simply a mass of rootlets cementing the plant to the solid bedrock. Often when it comes ashore it holds a piece of adamant in its grip.

These mammoth plants are confined exclusively to deep water. They are the "big trees" of the ocean, but on their coarse framework are growing, as parasites, some of the most delicate and beautiful moss to be found on land or sea—pictures of opaline softness.—July Pacific Monthly.

NOTICE OF FINAL SETTLEMENT

In the County Court of the State of Oregon, for Wallowa County, in the Matter of the Estate of Daniel Kinney, Deceased.
Notice is hereby given, that the undersigned executrix of the above estate has duly filed with the Clerk of the above entitled court her final account as such executrix, and the said court has fixed Saturday, August 7, 1909, at the hour of ten o'clock in the forenoon of said day, at the court room in the City of Enterprise, in said county, as the time and place for hearing objections to said final account and the settlement of the same.

All persons interested in said estate are hereby notified to file their objections to said final account, if any they have, on or before said date, in writing, with the Clerk of said court.
Dated this 6th day of July, 1909.

ANATONE STRAWBERRIES.

From Astin Sentinel.
A. J. Crow was down from Anatone Monday, making the trip in his runabout. He went on to Lewiston in the evening, to attend the circus. Mr. Crow says that everything is showing up nicely at Anatone at this time, and the celebration on the second and third is going to be fine. Everything is being done that can be done to help it along, and a big crowd is expected. Mr. Crow says strawberries are just beginning to

ripen at Anatone, and the other morning when he passed by Jake Stuky's place, he found that gentleman prying a berry over with a crowbar, so as to give it a chance to get a little sun on the opposite side and thus ripen more evenly. "Oh, but our berries in Anatone grow very large," Mr. Crow asserted.
